Allowable Subject Matter

1. Applicant's arguments filed 10/29/2004 with respect to claims 1, 6, and 11 have been fully considered and found persuasive because claims 1, 6 and 11 recite a drive circuit for driving a switching element comprises a high-side switching circuit connected between power supply lines; a low-side switching circuit connected in series with the high-side switching circuit, the high-side switching circuit being placed in an off-state when the low-side switching circuit is placed in an on-state, so that after the low-side switching circuit is brought into the off-state, both the high-side and low-side switching circuits are placed in the off-state. The references of record do not teach or suggest the aforementioned limitations, nor would it be obvious to modify those references to include such limitations. Therefore, claims 1-26 are allowed.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Danny Nguyen whose telephone number is (571)-272-2054. The examiner can normally be reached on Mon to Fri 8:00 AM to 4:30 PM.
